

Test Automation Script: Book Now Button

```
import pytest
from selenium import webdriver
from selenium.webdriver.common.by import By
from selenium.webdriver.support.ui import WebDriverWait
from selenium.webdriver.support import expected_conditions as EC

@pytest.fixture
def driver():
    driver = webdriver.Chrome()
    driver.get("https://www.qaonlineacademy.com/")
    driver.maximize_window()
    yield driver
    driver.quit()

def test_book_now(driver):
    wait = WebDriverWait(driver, 10)
    book_now_btn = wait.until(
        EC.element_to_be_clickable((By.XPATH, "//span[text()='Book Now']/ancestor::*[self::a or self::button]"))
    )
    book_now_btn.click()
    print("☑ Book Now button clicked successfully.")

    try:
        modal = wait.until(EC.visibility_of_element_located((By.CLASS_NAME, "modal-content")))
        assert modal.is_displayed()
        print("☑ Modal appeared successfully after clicking Book Now.")
    except:
        print("☐ Modal did not appear after clicking Book Now.")
```
